### A Small Blaze.

The fire department was called out yesterday about 11 o'clock by an alarm from box No. 56, the Beaumont Lumber company's store. The fire was in the house across the street owned by Leroy Parker, and was caused by a defective flue and did but little damage.

### Rev. Watts' Future.

Rev. Watts, his wife and sister left for Galveston via the Gulf and Interstate this morning. To the editor of THE DAILY EXPLORER, who was there to see him, he said that his future was uncertain, and that while his regiment would be mustered out on the 25th, it was possible that he would stay in the regular army and might go to the Philippines. Of Cuba he said that the island would never get away from us and that the people when they fully understood our people and government would not want to be separated from us. Of the Cuban leaders he thought that none of them were fit to administer a government. Even Gomez, who is perhaps the idol of the Cubans, is not a statesman, and the future would undoubtedly cement the Cuban people to the United States. Mrs. Watts will stay in Galveston a few days and then return to Marshall.

### Toasts at the Dollar Dinner.

New York, April 9—Meetings were held tonight by the committee of the Chicago platform democrats and the workmen to make arrangements for their dinners in celebration of Jefferson's birthday. The contract to serve the Chicago platform dinner on April 15 was let to a Bowery restaurant man, who agreed to serve it at 80 cents per plate. A partial list of the toasts has been decided upon. Mr. Bryan will speak upon "Democracy," Geo. Fred Williams upon "Trusts and Monopolies" and Colonel C. H. Jones on "The Platform of 1900."

### Dewey's Ultimatum.

New York, April 9—Admiral Dewey has given to the Manila correspondent of Leslie's Weekly an interview in regard to the suggestion that the admiral be made a nominee for president next year. The admiral said in regard to his politics:

"I am a sailor. A sailor has no politics. The administration is his party—republican or democratic makes no difference. Then again, I come from Vermont, and you know what that means. To be anything but a republican in Vermont is to be a man without a party. My flag lieutenant comes from Georgia. He tells me that to be anything but a democrat in the south is to be a nobody. If I lived south I would probably be a democrat."

"Have you ever voted?" the correspondent asked.

"Yes, years ago, but my vote was usually influenced by personal preference or local conditions. I am not a politician, have never held political office and am totally ignorant of party intricacies and affiliations."

Admiral Dewey said that neither by vocation, position, education or training was he capacitated to fill the presidency. He said he was too well along in life to consider such a possibility. His health would not admit it. All his life's work was in different lines of effort, and that while the kindness and enthusiasm of his friends were gratifying to him, and the generous tributes of the American people were dear to him, he could not and would not be a candidate for the presidency under any conditions.
